

THE GIRL THAT NO ONE KNOWS

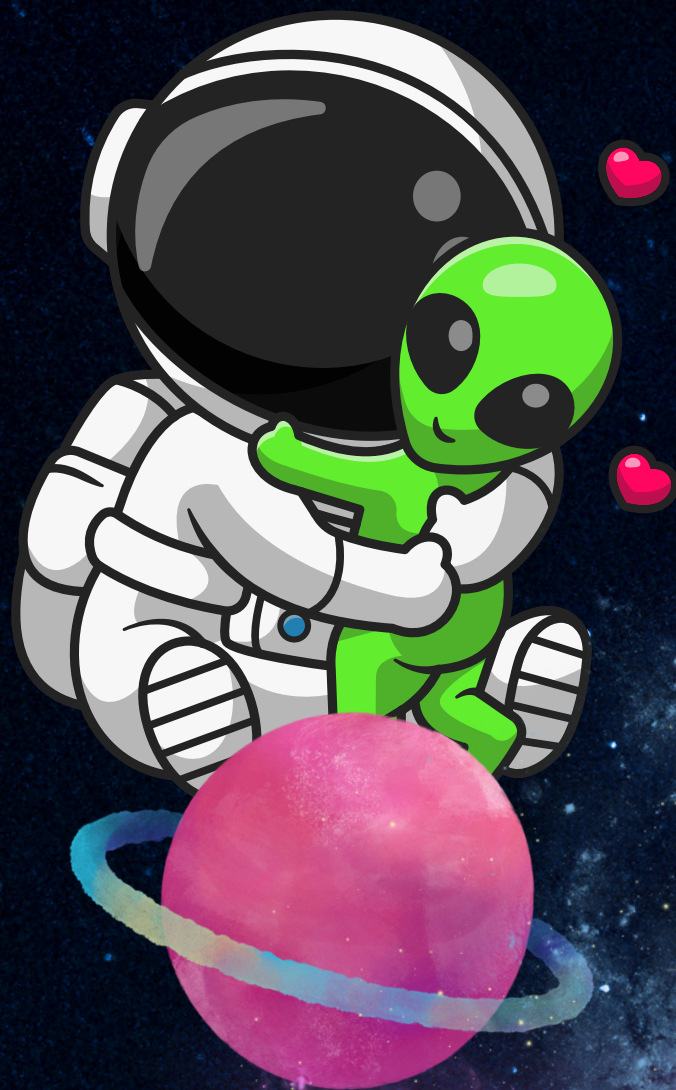

BYE AUDREY

One day, when Jay and his class were learning about space, a girl who no one knew walked into the room. Jay and all the other kids were confused. She didn't look normal. She had alien antennas on her head. She had a bit of green on her hands, some teal spots on her skin, and big puffy eyes. Behind her bangs, she seemed to have a third eye!

All the kids started turning around and talking to their friends about the girl.

“Class, no talking,” Miss Jess said. They all stopped and looked at the girl, from top to bottom.

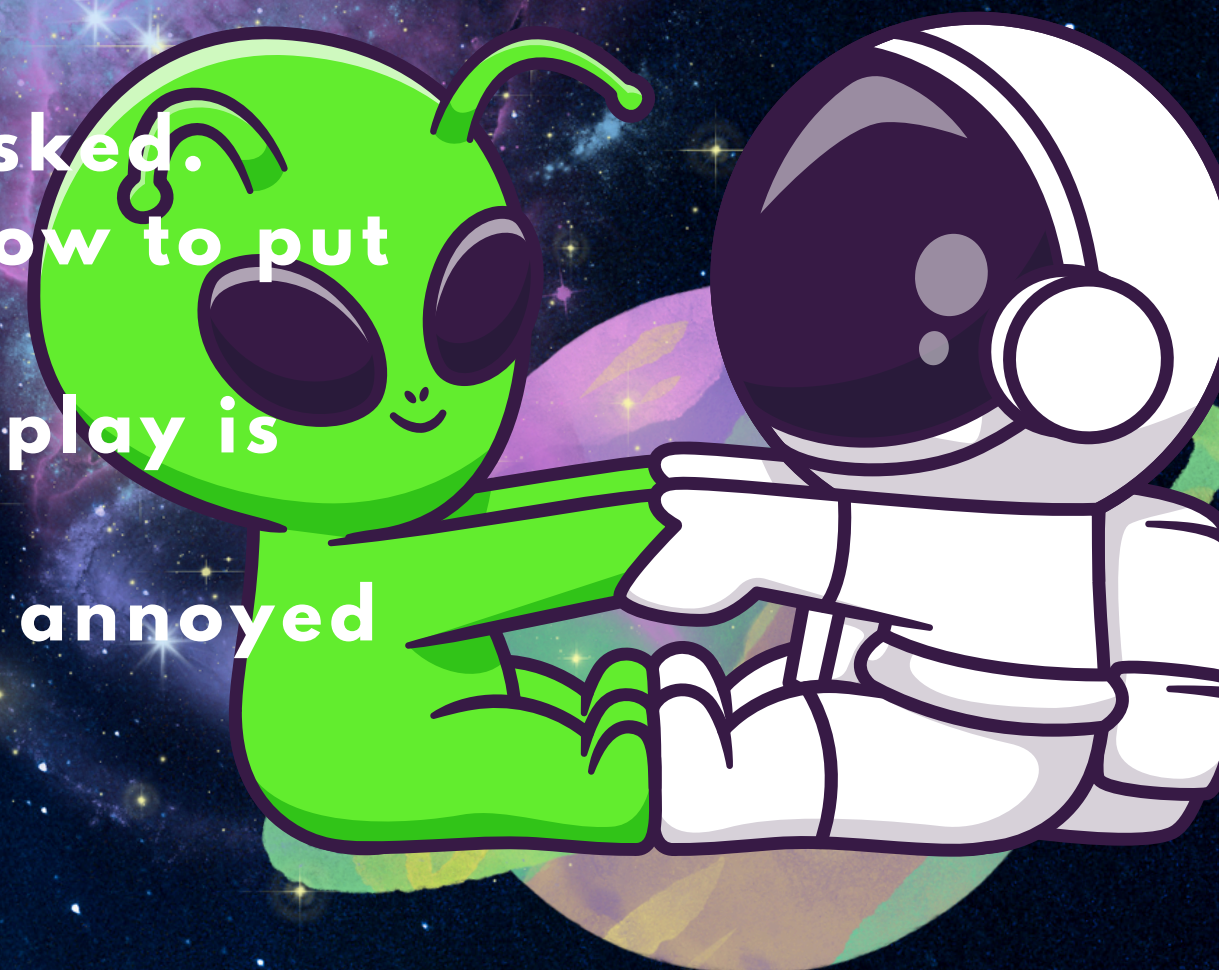

“Kids, this is Olivia, she will be staying in our school from now on,” Miss Jess said.

Something about Oliva just tells me that she is an alien, but I tried to ignore it. Miss Jess told her to sit in the back with Eliana. It was recess time , and Oliva came up to me and Michael, one of my best friends.

“Hi Jay, can I play with you?” Olivia asked. I didn’t know what to say. I didn't know how to put it nicely, so I just said

“Umm... sorry Olivia, the game that we play is really rough,” I said.

Olivia gave me a weird look, like she was annoyed with me.

“Uhh it’s fine, I don’t mind playing rough games please can I play?” she said.
I really wanted to run away, but that would be rude.

“Oh um sorry I need to go to the bathroom. I ran to the bathrooms as fast as I could, I didn’t even need to go. I stayed there for a bit but then I came out. Then Michael said that we should play soccer now. I agreed, and followed him to the soccer pitch. I felt like someone was following me so I kept looking back, but there was no one there.

“Why do you keep looking back?” Michael asked.

“Um, I just feel like something or someone was following us.

I tried to stop looking back, and me and Michael started to play some soccer. Until I spotted Olivia in the distance. I thought to myself, why is Olivia here? Was she the thing, or person I felt that was following me? She came up to me and she transformed into an alien!

“OH My GOSH, ARE YOU AN ALIEN? I said I was shocked! Well it did look like it. She had blue or teal skin and antennas and big puffy eyes.

“Why are you even here! This isn't a place for ALIENS!” I said.

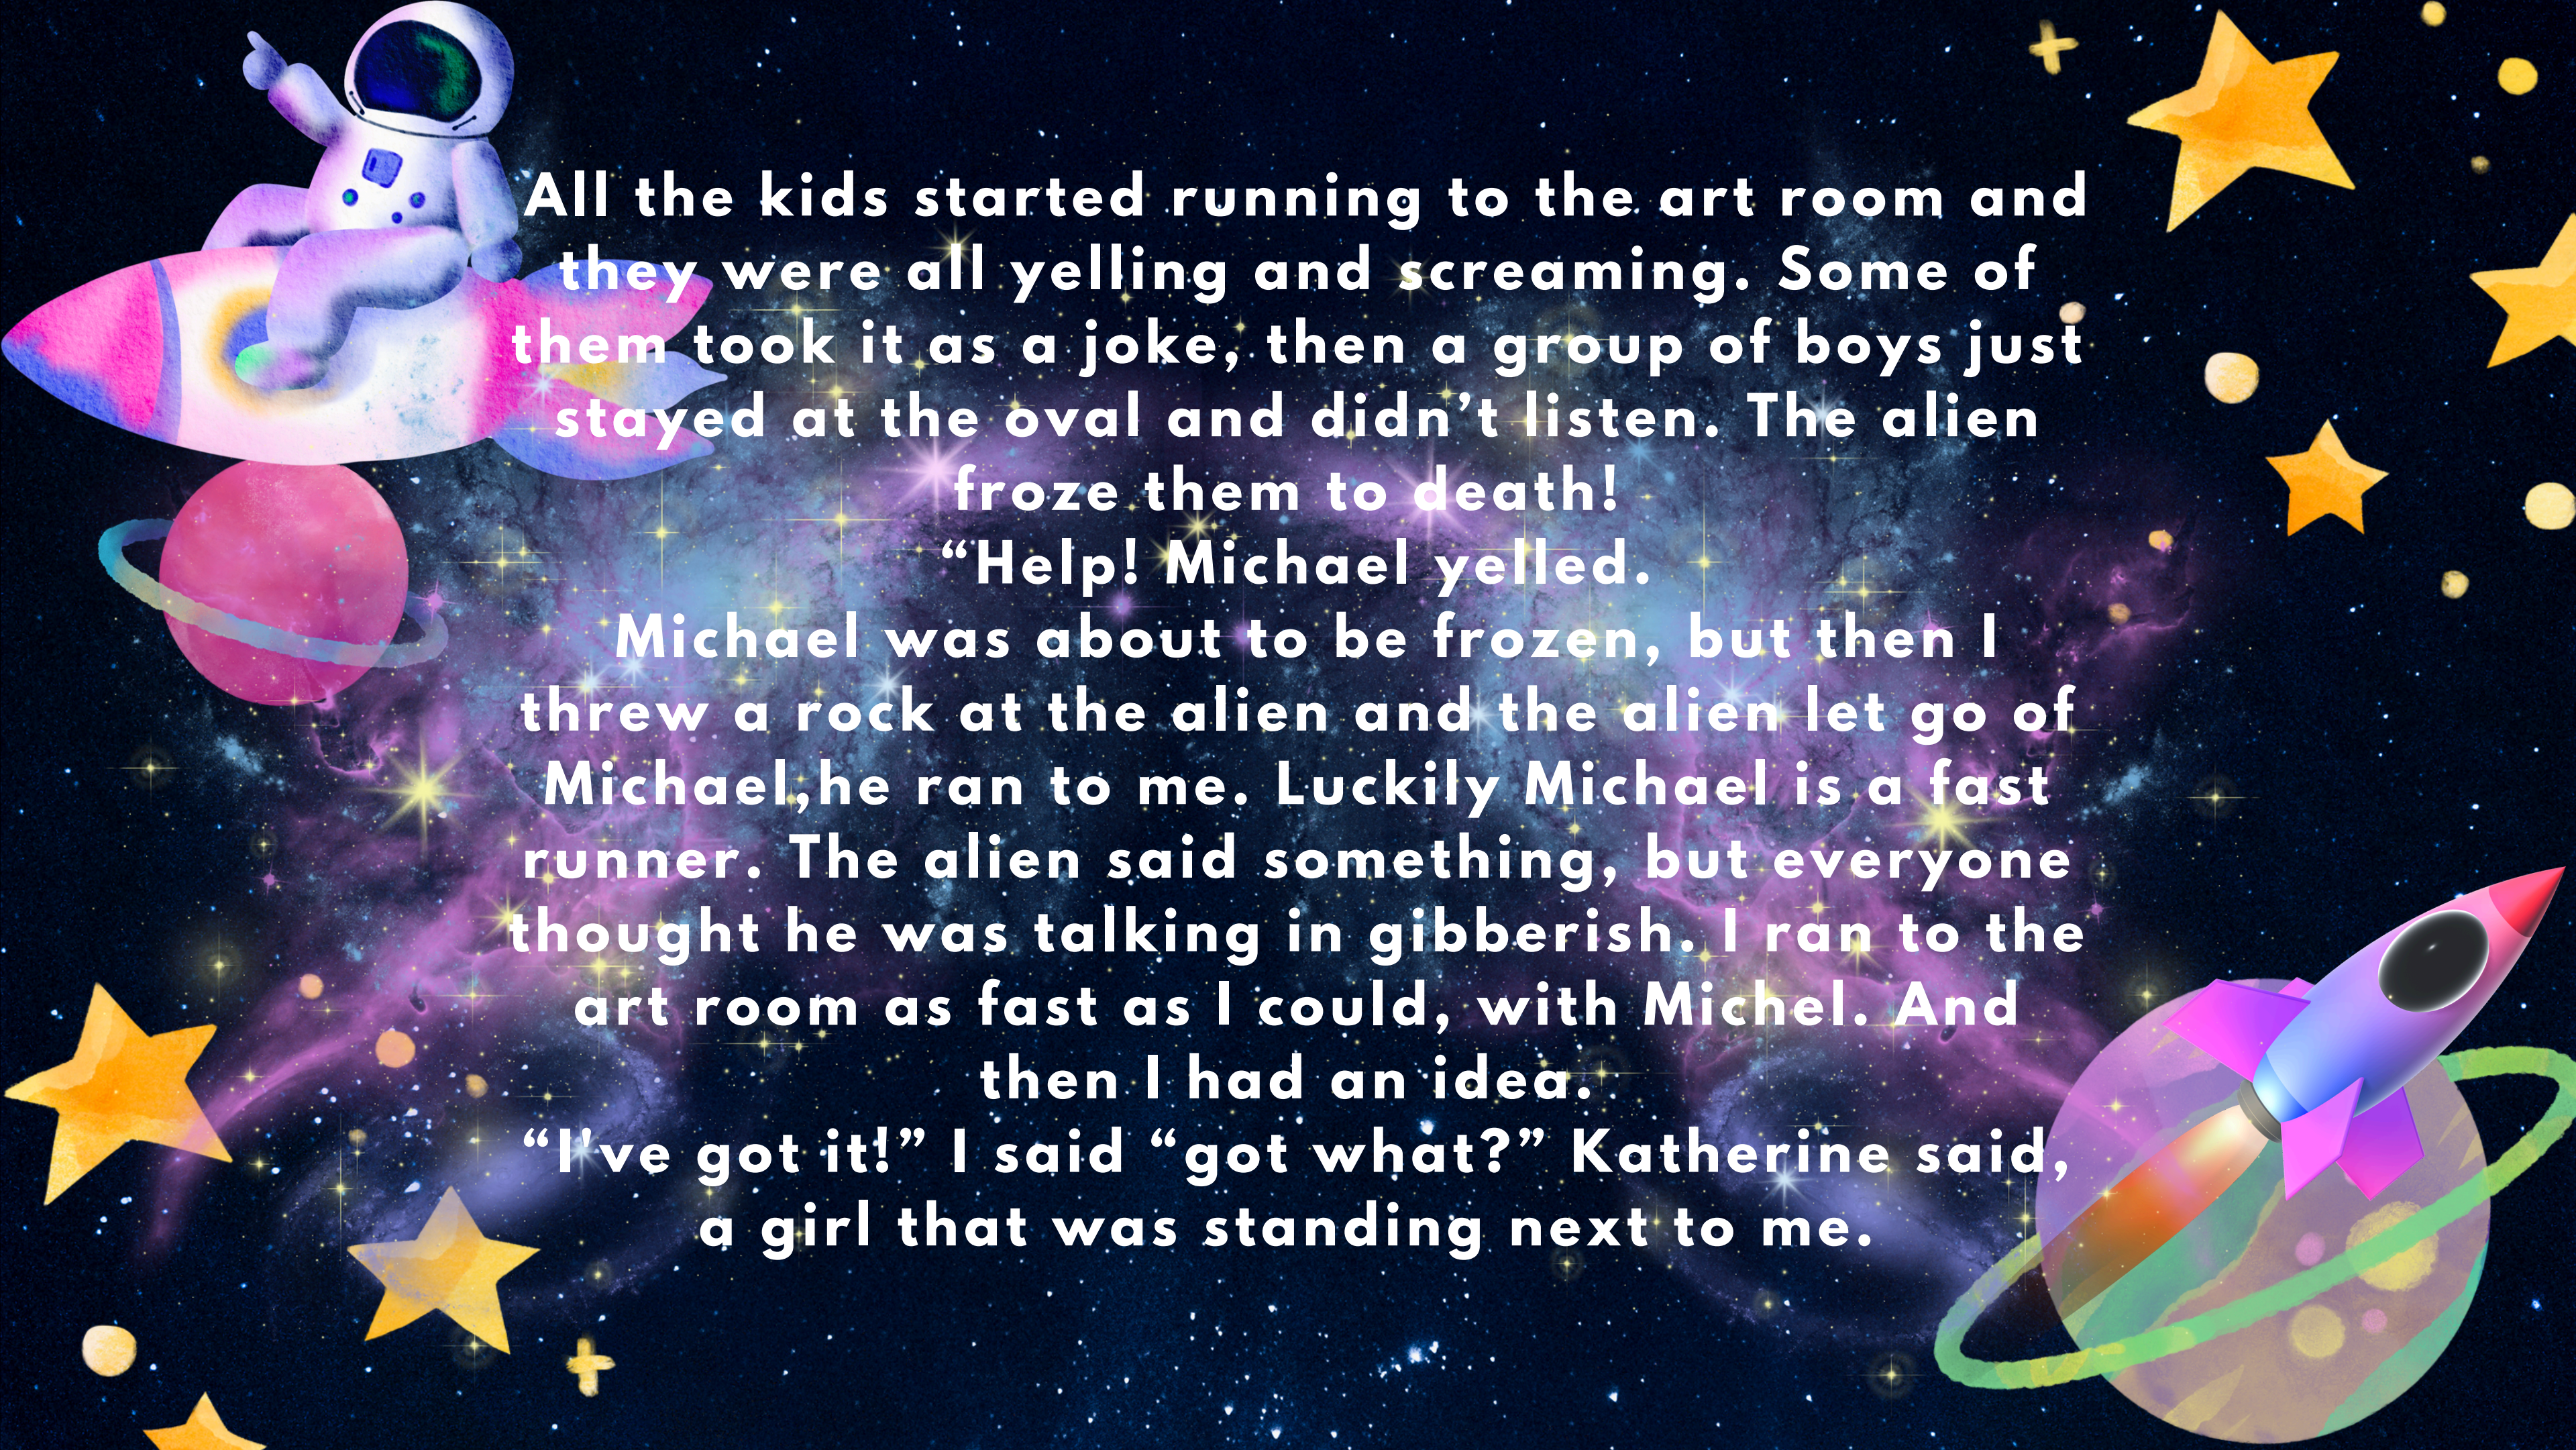

She gave me a weird look, like she did before.

“Well... I am here now! She said, Something suddenly just appeared in her hands; it looked like a freeze gun! I screamed and started to run to the basketball corte, so did Michael. One of the teachers came to me and asked “Why are you screaming?” the teacher asked.

“The new girl, Olivia, turned into an alien right in front of my eyes!” I answered.

“Oh my gosh, ok kids head to the art room right now! We need to keep you safe! The teacher yelled.

All the kids started running to the art room and they were all yelling and screaming. Some of them took it as a joke, then a group of boys just stayed at the oval and didn't listen. The alien froze them to death!

"Help! Michael yelled.

Michael was about to be frozen, but then I threw a rock at the alien and the alien let go of Michael, he ran to me. Luckily Michael is a fast runner. The alien said something, but everyone thought he was talking in gibberish. I ran to the art room as fast as I could, with Michel. And then I had an idea.

"I've got it!" I said "got what?" Katherine said, a girl that was standing next to me.

“I know how to get rid of the alien!,” I said confidently.

“We need to let the alien in here,” I said. “ARE YOU CRAZY JAY, DO YOU WANT US TO DIE? Katya asked. “No, we lead him in here and we all run out from that door.

**I pointed at the back door,
“Then, Mr Blake can get the remote for the heater. After that he will make it as hot as the heater can go!” The alien should melt!**

“OOOOh smart idea” Mr Blake and Michael said. Jay felt good just like a hero. Some of the kids doubted the plan but followed it anyway.

Mr Blake opened the main door to let the alien in. Then all the kids ran out to the back door. When everyone was outside Mr Blake and I locked both doors. He turned the heat all the way up and we could see the alien getting really hot and scared. He melted, and left a puddle on the floor. I went in and saw that he was gone! He melted!

“I told you guys that it would work!” I said proudly. They all clapped and cheered for me. Some of the kids even picked me up. We all waited for the room to cool down and went back in. Mr Blake said that I was a very smart kid, then he went back to teaching about the solar system. And that is the end of the story.
