

You Should Visit Japan!

By Calah

Introduction

Do you want to visit a place with yummy food and fun things to see? Japan is perfect! It has big cities with bright lights, but also quiet mountains and beautiful beaches. You can shop, eat new food, and see amazing sights. Japan is full of fun for everyone, you, your family and even your friends!

Why Should You Visit?

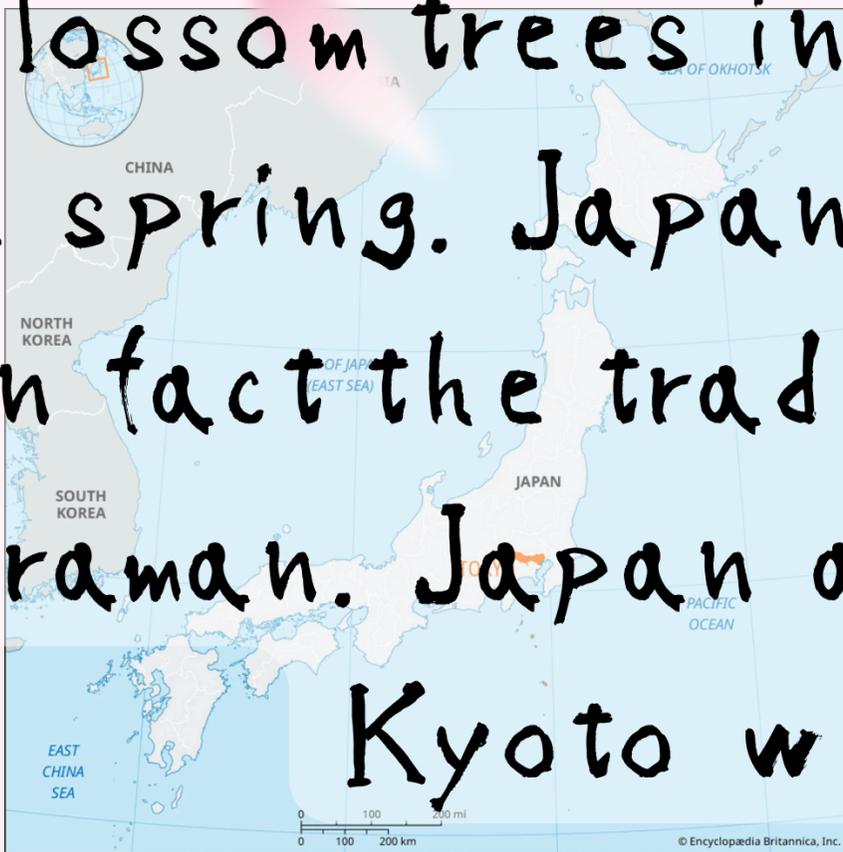

Japan is located in east Asia, and has a lot of stuff to do, like tasting food, watching festivals and looking at the different seasons!

Japan is famous for their cherry blossom trees in the spring time, so I suggest going in

the spring. Japan is also famous for their delicious food, in fact the traditional food like sushi, miso soup and

ramen. Japan also holds a lot of festivals, mostly in

Kyoto which is at the centre of Japan.

What Does It Look Like?

Japan changes a lot with the seasons! In spring, the cherry blossoms make everything pink and beautiful. In autumn, the trees turn red and orange, and the ground gets dry. Winter is very cold and snowy, and summer is hot with lots of fun festivals. Japan also has busy streets full of lights and people, but there are quiet mountains and beaches that are amazing to see too!

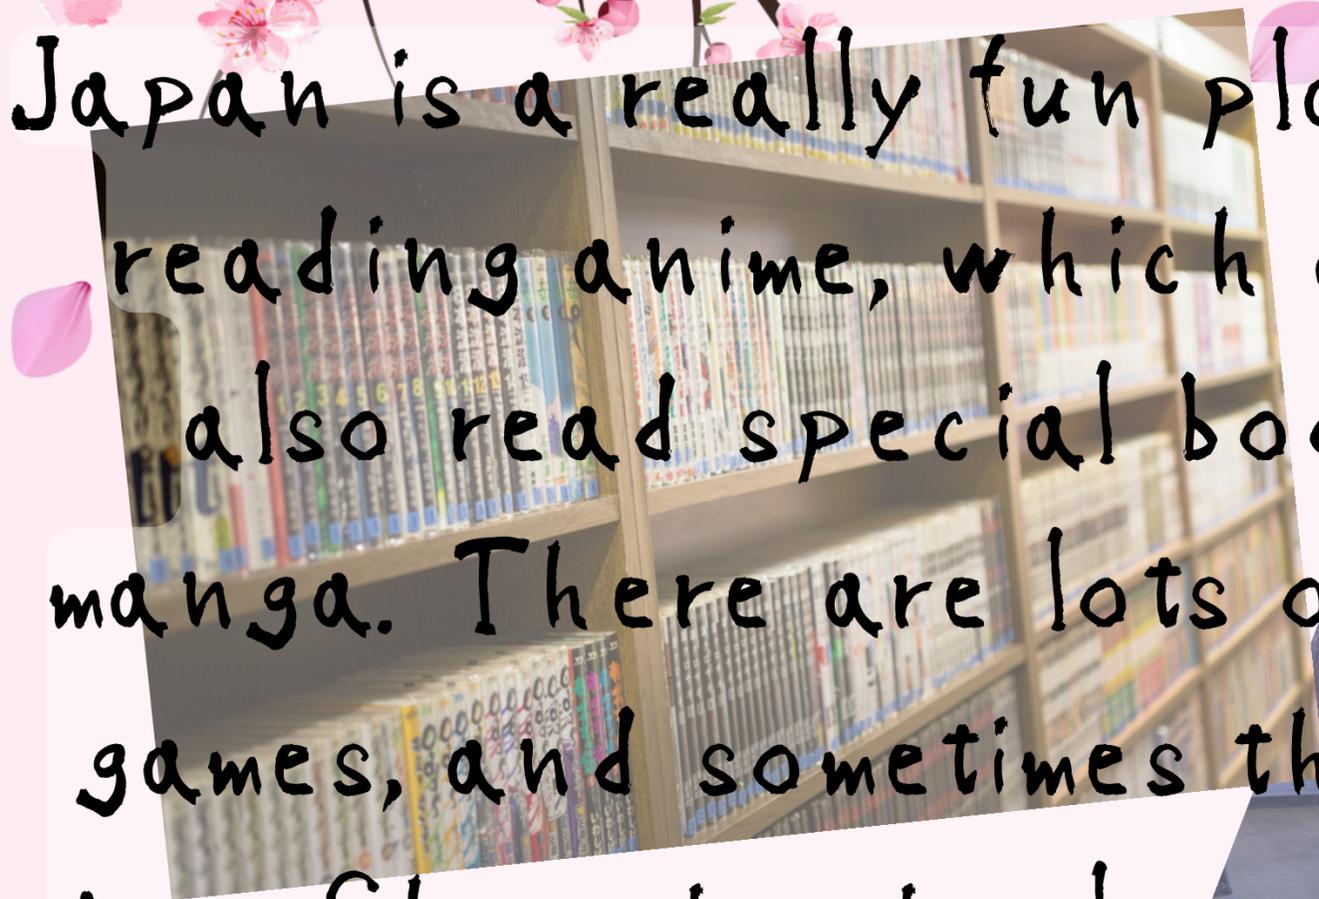

What Does The Food Like?

Japanese food is really yummy and different from what we eat at home. You should try sushi, ramen and miso soup. Most meals have steamed rice to make it just right. The flavours are sweet, salty, and sour, but not too spicy. Japan also has fun themed cafés, where eating is like an adventure!

What Is The Entertainment Like?

Japan is a really fun place! People there like watching and reading anime, which are cartoons and stories, and they also read special books that are only in Japan called manga. There are lots of cool arcades where you can play games, and sometimes there are fun performances to watch too. Shopping is also really popular, and you can find all kinds of awesome things to buy. Japan has so many things to do, its never boring!

Conclusion

Visiting Japan is a super fun adventure because there's yummy food to try and exciting places to see everywhere you go. You'll discover so many cool things and have the best time exploring all the amazing sights and experiences!

So Why Not Take Your
Vacation To Japan?

It Has So Much To See
